Claude Architect Exam Prep

Study notes and preparation material for the Claude Architect certification exam.

About

This repository collects notes, summaries, and practice material for the exam, written as plain Markdown files.

Structure

Content will be organized by exam domain as it is added. Planned areas include:

- Claude models and model selection
- Prompt engineering
- Tool use and agents
- Model Context Protocol (MCP)
- Claude Code and the Agent SDK
- Prompt caching, context management, and cost optimization
- Evaluation, safety, and deployment patterns

Notes

Topic	File
Prompt engineering basics	notes/prompt-engineering-basics.md

How to Use

1. Read the notes for each domain.
2. Work through practice questions.
3. Track weak areas and revisit them.

Status

Work in progress.
